Kanagaraj Venkatraman

Service Now QA | 7+ Years of Experience | vkvicky0226@gmail.com
Chennai, Tamil Nadu, India

Professional Summary

ServiceNow QA professional with over 7 years of experience in manual and automated testing. Specializes in end-to-end validation for ITSM, ITOM, and GRC/IRM modules using ServiceNow ATF and Postman. Proven track record in Agile delivery, defect management, and designing robust test strategies for complex enterprise applications.

Technical Skills

ServiceNow Expertise:

Modules: ITSM, ITOM (Discovery, Service Mapping, Event Management), GRC/IRM, HRSD, CSM, FSM, ITAM, SRM.

Core Platform: Catalog Items, Workflows, UI Policies, Workflow/Integration Testing.

Testing Methodologies:

Functional, Regression, System Integration (SIT), UAT, End-to-End, Smoke, Sanity, Black Box, Compatibility, GUI, Ad-hoc.

Specialized: Mobile Testing, Accessibility, Performance (familiar).

Test Automation & API Testing: Frameworks & Tools: ServiceNow ATF (Automated Test Framework), TestNG, Postman, SOAP UI (familiar), AVO (familiar).

Test & Defect Management Tools: JIRA, Azure DevOps (ADO), TestRail, Zephyr, Testmo, SIM, Bugzilla.

Database & Query: SQL (data validation and troubleshooting queries)

Platforms & Databases: Salesforce (SFDC), ServiceNow (CSM, FSM, ITSM, ITOM, IRM, ITAM, SRM, GRC), AWS S3, HTML, Android Studio

Mobile & Other Tools: Mobile Ecosystem: Android Studio, iOS, mShop, Android.

Data & Utilities: Data Loader, Builder Toolbox, Optius, Improv, BMC Remedy CMDB.

Delivery: CI/CD pipelines (awareness/integration).

Core Competencies

- End-to-end test execution across large/complex multi-interface solutions
- Test strategy, test estimation, and test plan preparation
- Requirement analysis and impact analysis across product components
- Defect triage, debugging, and follow-up to resolution
- Test script library management in TestRail / Zephyr
- Agile/Scrum collaboration (stand-ups, sprint reviews, retrospectives)
- Mentoring and leading cross-functional QA teams
- Automation stability checks and regression script execution
- Cloud environment setup: AWS, Azure, GCP

Professional Experience

Prodat Solution | Jan 2023 - Present

QA Engineer / Senior Software Engineer
Projects: AT&T, Lumen/Quantum Fiber, Hyperoptics, Vodafone

- Led end-to-end QA strategy for ServiceNow implementations across ITSM, ITOM, HRSD, CSM, FSM, IRM, ITAM, and TPRM modules.
- Designed and executed functional, regression, integration, smoke, sanity, and UAT test cases for complex enterprise applications.
- Developed, maintained, and optimized manual and automated test suites using ServiceNow ATF and Postman.
- Prepared detailed test plans, test strategies, test cases, and test data based on business requirements, user stories, and technical specifications.
- Managed test repositories in TestRail and Testmo, ensuring strong traceability from requirements to execution and defect closure.
- Identified, logged, prioritized, and tracked defects using JIRA and Azure DevOps, and led defect triage sessions with development teams.
- Performed end-to-end validation of integrations, workflows, customizations, catalog items, UI policies, and business rules.
- Executed testing across Salesforce environments, including Sandbox and Production, covering Apex classes, triggers, workflows, Lightning components, and security configurations.
- Verified data integrity through SQL queries and Data Loader, and validated access controls such as profiles, permission sets, and sharing rules.
- Led and mentored a cross-functional QA team of 18 members across multiple locations, driving quality ownership and timely delivery.

- Supported release and deployment activities by coordinating environment setup and performing post-deployment smoke and regression testing.
- Maintained audit-ready QA documentation and supported GRC initiatives through ServiceNow IRM, ensuring compliance and process adherence.
- Designed, developed, and executed test plans, cases, and scripts for ServiceNow GRC apps, validating functionality across Policy & Compliance, Risk, Audit, Vendor Risk, and Business Continuity modules.
- Performed functional, integration, regression, system, and UAT support testing to ensure release readiness.
- Validated workflows, forms, business rules, client scripts, UI policies, notifications, ACLs, and integrations across GRC applications.
- Reviewed business and functional requirements to ensure complete and accurate test coverage.
- Conducted API testing and integration validation using Postman.
- Validated data migration, reports, dashboards, and security configurations.
- Ensured compliance with company QA standards and testing best practices throughout the release lifecycle.
- Provided test summary reports and quality metrics for each release to stakeholders and leadership.
- Identified, logged, tracked, and verified defects using defect management tools, and collaborated with developers, BAs, product owners, and stakeholders to resolve issues.
- Participated in sprint planning, stand-ups, and retrospectives in Agile environments.

Amazon | Mar 2019 - Jan 2023

Quality Service Associate
Projects: FBA, SBR/Promise Testing, SnS, SFS, Amazon Fresh

- Created, modified, and executed manual test cases for Functional, ATF, Integration, Mobile, Web Application, and Regression testing within tight release cycles.
- Designed automation test plans; identified sanity and regression candidates for automation and executed regression scripts using TestNG.
- Ran automation stability checks and delivered stability reports to management.
- Prepared test estimation, test strategy, and project roadmaps for assigned projects.
- Identified, debugged, and reported defects; conducted triage meetings and followed up with development teams for defect closures.
- Performed requirement analysis and developed test plans/user stories from Business

and System requirements.

- Collaborated with functional and technical teams to define test scenarios for ServiceNow GRC modules, validating business rules, configurations, and reporting functionality.
- Executed application compatibility testing using emulators, simulators, and real mobile devices (Android/iOS).
- Performed smoke tests on development and test environments post-deployment.
- Prepared SOPs and mentored new hires on multiple projects.

HCL Technologies Ltd. | Jan 2016 - Apr 2017

Customer Service Executive

- Managed supply chain operations, customer coordination via email and calls, and data entry tasks with high accuracy.
- Assisted management with tool/metrics development, data interpretation, and process improvement.
- Provided customers with detailed product information, warranty, and delivery guidance.

Education

B.E. (Computer Science & Engineering)
Veltech High Tech Engineering College, Avadi | 2011 – 2015

HSC (Computer Science)
Velammal Matriculation Higher Secondary School, Surapet | 2011
